I LOVE IT ALL. I am definitely determined to strive within this industry and make a name for myself. I sure know how to have fun! I take pride in being a dare devil and a people person! Erin Fay is a 24 year old model from New Jersey. She has been modeling for 5 years and it has become quite a passion of hers. Her goals are to shoot for playboy and has been featured on playboy Mexico's website and competes in Playboy miss social. She is also a promotional model for Bud Light. Her social media fan base reaches over 80 thousand people and has become very popular on social media. Her dreams are to be published all over the world. As a child Erin was not known to be one of the pretty or popular girls and was not chased around by the boys. She was picked on and was very shy. In

her 5th grade year book when asked what she wanted to be when she grew up she put down modeling. With no actual intentions of becoming a successful model she got older and went for her dream. Even if she does not reach all her goals as a modeling she has made it farther in the industry then she ever thought possible. She will continue to keep thriving as a model in the small town of Manahawkin New Jersey in hopes to become bigger then she ever imagined. She hopes to soon move to Las Angeles for more opportunities in the near future. Keep an eye out for this young aspiring model.

Liberata

Liberata Dolce is a 28 year old model based out of Sarasota, Florida. Self described as "part bombshell, part hippie", she took on modeling simply as an outlet for creative expression. Her portfolio varies in every genre, and she considers each shoot a new creative challenge. Though her favorite style is a combination of edgy and editorial.

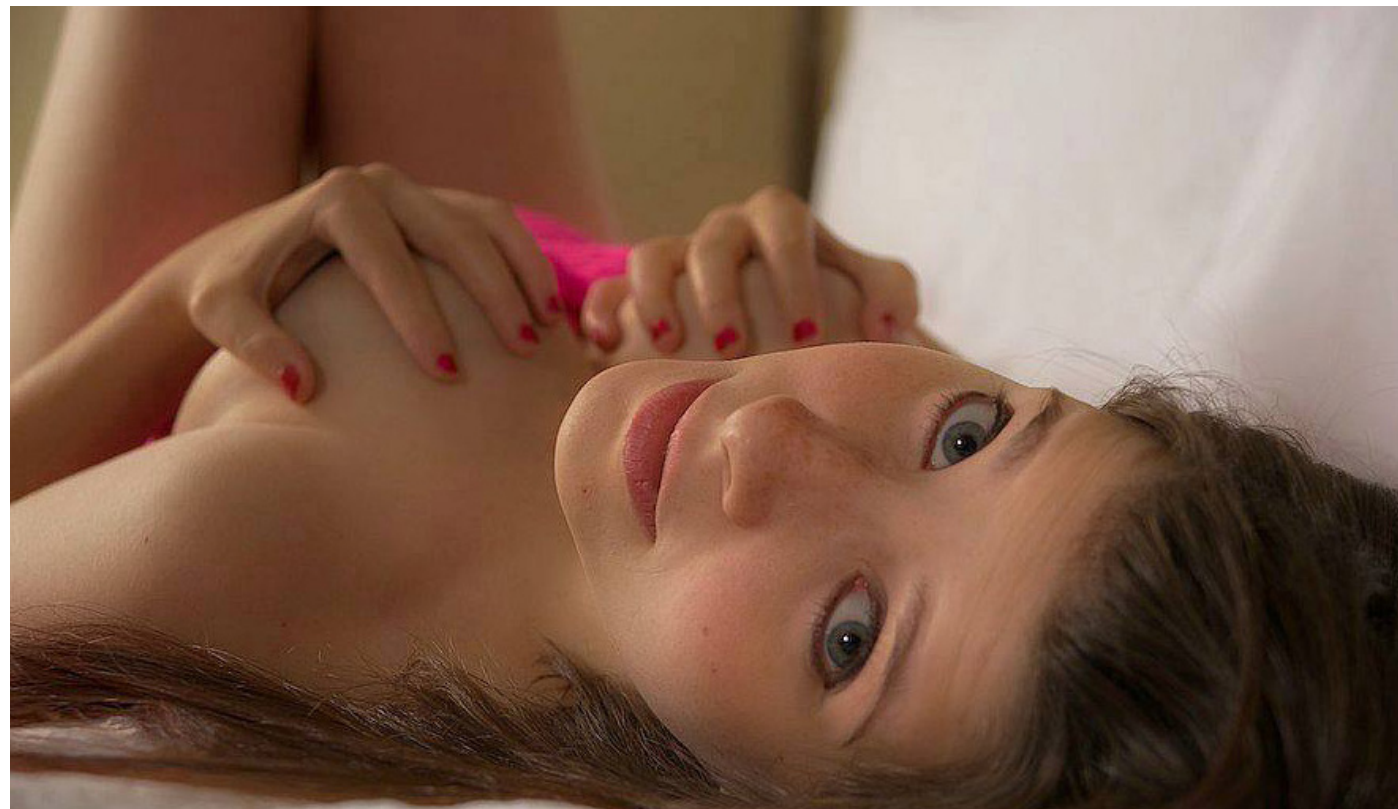

Outside of shooting, her main passions consist of fashion, traveling and horses. Horses are so much a part of her life, she even went to school and graduated with a Bachelor of Science with the intentions of importing sport horses from Europe. She also competes professionally in Dressage.

Her long term modeling career goals are simple- to go wherever it takes her, to enjoy the ride, and shoot with as many photographers as possible. Collaborating is half the fun for her, and she meets every assignment with the same attitude- to absolutely kill it, and then some.

Candice Elizabeth

Candice Elizabeth started doing modelling for fun when she was studying to be a teacher so that she could get some themed shots to apply for acting parts in student films. She loved being in front of the camera but at the same time she was really worried about doing anything to risque (even bikini/lingerie she steered clear of) because she didn't want any future students stumbling across photos on the internet years later. That actually happened when she was teaching, but that's a whole different story!

When her teaching job ended, she realised that that was the only thing stopping her from really giving modelling a go, so she went for it! Being a teacher meant that she developed patience, as well as some smarts. Both of these things help in modelling for sure.

Since deciding to pursue model-

ling in 2013, Candice has been published multiple times in different men's magazines, competed in numerous online modelling competitions, as well as being sought for online features and music videos. Her online portfolio/presence has increased in leaps and bounds in the short time since she has begun pursuing modelling and she hopes that her portfolio continues to improve in 2015. A recent noteworthy achievement was being crowned Playboy's Miss Social August 2014, which saw her jet-set to the United States for a photo-shoot with a Playboy photographer and take a tour of the mansion in December 2014. She is over the moon to be a part of the Playboy family and proud to be the first (and only!) Australian and redhead winner.

When it comes to styles, Candice loves glamour-style photography above all else and is also re-

ally fond of the pin-up style. She loves these styles of shoots as she believes that they best flatter her body type and look. Her natural body is slim yet curvy, and this combined with her fair skin and natural red hair gives her a unique yet classic look that is extremely versatile and striking.

The most important thing she's learnt is not to take criticism and knock-backs personally. When you start posting things in a public forum, negativity is always going to find its way to you. Even models like Miranda Kerr have to deal with it. You just need to have a thick skin. Another key lesson she learnt is if something looks too good to be true, it usually is. Make sure you ask around before accepting offers from photographers that don't have a reputation for being professional.

Kaila Sherrie

Kaila Sherrie is 20 years of age, 5'4" in height, platinum blonde with hazel green eyes. She was born and raised in Brisbane, Queensland, Australia. She now lives north of Brisbane in the Sunshine Coast area.

Kaila first started out as a promotional model for Jim Beam Australia and it was there that she realised doors had opened into the mod-

elling industry for her. She was offered a couple of photo shoots with various photographers and from there her modelling career kicked off.

Now Kaila is very well known for her amazing lingerie and swimwear modelling and to date she has been published in five magazines including several international magazines with plenty more upcoming publications on the

horizon.

Kaila has great ambitions of making it to the top and her amazing passion for this industry is evident in everything she does.

Kaila loves outdoor adventures, sharing time with family and friends and is always regarded as being the life of the party.

People ask me all the time how many hours have you put into your tattoos, how many years did it take and my personal favourite did they hurt? Well... I only really started getting ink about a year ago, as addictive as they are I pretty much got all my tattoos within a 6 month duration. Approximately 65-70 hours under the gun, I can honestly say YES they hurt, but I love it! From being a psychology student, to a business entrepreneur, personal training and modelling, I feel like I have a lot of different opportunities to explore.

As of recently, I am enrolled in the wine sommelier program in Niagara. Being a country girl at heart I feel I'm pretty down to earth and have established the fact that "I'm one of the guys". Sports fanatic and gym enthusiast this is why fitness plays a very big role in my life. I'm blessed to work with such amazing photographers from all around Ontario and am super excited to see what my future holds!!! Stay tuned for more creative pieces and I hope to keep my fans entertained!

Photo, Shane Suban (now a Multi-NYC Agency Photographer), Lynn Wegiel of LTW Custom Cosmetics, Leandra, Irene Mendez, Jayza MUA, Joanna Petit-Frere, Priceless The Nicest, Dan Minucci Photography for Drea Couture etc: I was able to create an image/beginning of a brand and bring in work from Boston or go to work in Boston. Boston was calling me; This was three years ago. From there, my career spiraled out of control and next thing I knew, I was invited to every audition in Boston, I was organizing auditions, I was a Publicist for an Amazon.com Best Selling Author from the UK, I was coordinating wardrobe for main characters, I was setting up audition locations for production companies and I eventually became good friends with David Gere. We worked together on the set of "Bleed For This", in which I was featured, produced by Chad Verdi of Verdi Productions and Executive

Producer Martin Scorsese. I have always looked up to Martin and Chad and have always wanted to work with both of them, so this was an optimal opportunity and experience.

I'm involved with Women in Film and every once in a while, I'll stop by a meeting. Last year I went with a friend and met Erica Derrickson for the first time which was wonderful, we began a professional friendship/relationship after this with much respect in her group Hollywood East Actors Group of nearly 8,000 members now compared to when I joined and there was around 1,000+. Everyone has helped make it what it is, especially Erica. Though, the amazing trailers and work that comes through her group and a lot of the other groups out there is mind blowing! There are definitely a lot of talent here in Boston whether it's in acting or film-making. I

also co-manage a group called Model-Actresses International on Facebook and it consists of 30,000+ people, my point being there are a lot of great social media outlets for new actors, seasoned actors, industry professionals of other sorts etc to come together, show everyone 'what they've got, like and share others' work and succeed as a whole by working together. This is part of what my workshop teaches plus it's a social media crash course of over 88 slides on a slideshow running off of my projector I bought exclusively for the benefit of workshop/those who partake. I am here in this industry to not only help myself succeed but to help others succeed, we all only have one life and it goes by fast so why deny someone of fulfilling their dreams? Helping and giving back is the key for me.

While in California, Roxana became attracted to the modeling and acting industry and attacked it with a passion. She loves being in front of the camera, and the camera loves her. Having some experience under her belt, Roxana feels and knows that she is destined for greatness soon enough. It is this passion, drive, and determination this beautiful young lady possess that keeps her striving and hungry for more. In her spare time, Roxana likes to go to the movies, hang out with friends, and play sports.

Roxana has been published in several magazines such as Silk Magazine, Designer Original Magazine, Wheels 2000 Magazine, and Brusco Magazine ect.. Roxana currently owns 2 cats. Her ultimate goal is to be a successful actress on the big screen.

I'm a young Canadian girl with huge dreams. modeling is my passion and I have met so many amazing people since I started my career.

Jennifer Powell

© David J Vickers Photography

I'm Jennifer Powell, 39 years old. Born and raised in Ohio. Started modeling at age 35. This was a childhood dream I never wanted to let pass me by. Raising kids at a young age, I wanted to show others that it's never too late to follow those dreams. Your life is what you make it. I love being different than others, and I stand confident to show others that it's okay to be who you are. That's what makes everyone so beautiful and unique. Life's a journey, not a destination. (A quote I live by)! I live life to the fullest and will try anything once. Family, my children, husband, cooking, crafts, outdoors, modeling, animals, music, and the ocean are all a big part of my life.

Chris Douglas 2015

Stathena comes from a family of photographers and, as an only child, was used to being a constant subject. As an adult, modeling just came natural to her. Her grandfather and mom (both former photographers) encourage her dreams. Her husband has taken a huge role by reigniting her love for modeling almost 7 years ago, when he was just a boyfriend, and standing by her side every step of the way.

Of course she is extremely family oriented and loves her 8 chinchillas. Yes, 8... 3 of which were rescues. She is a bit of a perfectionist and a neat freak. If you get her talking be prepared to spend at least a fun few hours

because she is a down-to-earth chatterbox.

Stathena has had the privilege of working with internationally known photographers and has been published in various e-magazines, websites, books, and calendars. She has even worked as a Magician's Assistant! Her current goal is to be in Playboy. Her grandfather's hope is for her to be in Sports Illustrated.

Her hobbies include figure skating (which she did competitively for 10 years), skiing, knitting, crocheting, reading, RPG's, and binge watching her favorite TV series (latest being Arrow, Flash, Face Off to name a few).

My name is Victoria but most people call me Vicky. I am 26 years old and I am 100% Vietnamese. Yes it is true I am Vietnamese. I know I know I have big eyes for an asian but assume that's a unique trait about me. I am a proud mother of a precious 4 year old boy. I still consider him my baby boy. I am happily married to my soul mate. I am very blessed to say that everything in my life has just been amazing. I believe that you should live your life to the fullest, always be positive no matter what.

I started modeling in 2007 but I wasn't that all serious about it. I then went back to modeling in 2011 and started shooting almost every week. It became a craving. A passion. I absolutely love the creativity you can capture in a photograph. When I model it takes me to a different world, a world where I can be whatever I want to be. It's the best stress reliever. I can feel myself progressing through out the years. I hope that one day I make it big in this industry, to be published, to be recognized, to have that fulfillment and accomplishment. I know that one day I will make it there. The world is ready to see this girl! :)

Thaie

My name is Thaie and I am 24 years old. I was born in Switzerland, a beautiful country where I have been living 13 years. I am Spanish so my family's dream was to come back to our country, we did it and I have been living there for 10 years. I also made my Translation and Interpretation studies in the country of the sun. After that I came to France and I discovered a new passion: fitness. I started training 9 months ago and I saw results very fast. That's why I started training 6 times a week to prepare myself for fitness competitions here in France. I have two coaches, both are very important people in my life. Without them I would never have achieved those amazing results.

The first cares about my special diet and the second trains me at the gym and also organized all my communication. That's a new way of life for me but an amazing way to live. You have to do lots of sacrifices but when you see the results in your body and all the people that support you it's just an amazing victory. Now I want to continue travelling around the world and learn new languages. For the moment I speak French, Spanish, English and Italian. With this new way of life I learned something: you have always to go for your dreams, don't care about what people say or think about you, you are the boss of your life and you have to be proud of you and your results.

Just care about you and the people that supports you.

Life is a gift, so just do it!

Hey there! I'm Pestilence! Yes you read that right Pestilence, like the four horsemen. I'm a small town girl with big dreams to get to the top. I've had my work shown in places like suicidegirls.com, burningangel.com, and other various places. I have a passion for modeling and body modifications. I'm not your average girl and I could probably kick your ass in a mosh pit. I believe in redefining beauty. No more of that whole thing that the media has told us makes you "normal", a "model", or "beautiful". I love showing the you can have tattoos and piercings and be sexy as hell. Also that you don't have to be 6 feet tall and 90 lbs. to be "perfect" or "beautiful"
