Ali McArthur

I'm just a small town girl, born and raised in Ridgeville Ontario. Working hard to make my dreams become my reality. I'm very proud to say it has become my reality, it was a long process and alot of time at the gym. I consider myself to be a lone wolf, a child of the moon. Always looking for something fun and adventurous to do with my time, if I am not modeling I spend my time, with the people I love, my two crazy kitties (Fella & Mr.). Also spending days a the beach and going dirt biking or horse backriding. I love to be spontaneous, and the feeling of adrenaline running through my body. Becoming a model has helped me with my self confidence quite a bit, I have always been a tomboy. Rocking my cowboy hat and a pair of overalls. Over all, this has been a fun and exciting experiece and I can't wait to see what the future holds

Angie Love

I'm from San Diego, I was born in Mexico i'm half Mexican and half philipino. Started modeling over two years ago, a friend photographer of mine asked if I wanted to model for him and do a shoot, and it took off from there! i have worked with many talented photographers that now I consider my friends, I have learned so much from every one! They all work an shoot so differently, and I love and appreciate that! I love posing for the camera & Im always up for new and different style shoots and locations, but I really enjoy biki-

ni and lingerie shoots the most. I consider myself very healthy and always try to watch what I eat, Which is tough because I love to eat!!! My favorite food is seafood and sushi! I exercise regularly and keep my spine well adjusted also. I believe its a must to stay in shape and stay healthy in this industry and to live a happy long life!... I only model part time so the other part time job is running a Chiropractic office, I assist the doctors with therapies, front and back office, I really enjoy helping patients and helping getting them back in

shape so they can continue with their everyday lives. I also have a huge heart and compassion for animals. I rescue, foster, donate and volunteer whenever I can to help save dogs and cats from death row!

Growing up I was obsessed with Barbie, I always wanted to be like her, I grew up being a tomboy and also very girly dresses and high heels, I really admired her so much :) now I consider myself a sexy and hot mexipino Barbie I still love dressing up for my photo shoots and events!

Bridget Chatterpaul

My name is Bridget Thomas Chatterpaul, as a freelance model for 3 and a half years, my goals and motives are to gain experience and knowledge of this business, express confidence, class, dedication, and to express yourself in an art form that no one else can. Growing up in a small town on the outskirts of port perry was very difficult being different ethnicity (Trinidadian/Canadian) especially through the bullying years of school, making friends with friendships that would last was just something that didn't work at the time. That's were I found my passions and favorite habits such as playing girls league soccer, baseball, tap/hip hop and belly dancing, to competitive horseback riding, show jumping and cross country courses. Having found my passion for animals I followed my

dreams, volunteered at the humane society then completed the vet assistant program along with the Psw course. Along that road my dad has been blessed with opening 2 restaurants one is in whitby named Chatterpauls and the other in Bowmanville named Tetra, both very delicious incorporating canadian cuisine and twisting it with a Trini splash making every dish burst with flavour. Having worked in the restaurant industry I dealt with society everyday which made me realize that I love caring for others, gives you an Incredible feeling of reward and satisfaction making you feel proud when you go to bed. I always say everyone should do at least one good deed a day, what goes around will come around. That is why I started modeling, to boost not only confidence but also to inspire others to fulfill

there dreams in there own artistic way.

Carlee Koabel

Hi every one, my name is Crystal Staggs, I want to tell you a little about myself, I am a true okie at heart, born and raised in Oklahoma City, Oklahoma. I'm a dental assistant, been working closely with the public for 8 yrs, you could say I'm right in your face. I have always loved being in front of the camera since I was a little girl and being the center of attention.

I've been a model for 2 yrs, and a lifelong dream and passion of mine ever since I can remember is to be in Playboy playmate, what an honor and thrill it would be to be know and recognized all over the world and to be tied to a worldwide brand like that.... give's me goose bumps all over!!!! Modeling is a true passion of

mine. I have tons of sex appeal and a very strong sexuality that I use to seduce the camera. I'm very comfortable with sensuality, and very comfortable expressing my sexuality. Nudity is not a problem with me as long as I'm portrayed as a woman, Classy, Glamorous and Sultry. I love nature and being outdoors, and at times I love to live on the daring side of life.

Life is to drab if you don't take a risk every once in a while. I at times prefer to live on the wild side, a real "TIGRESS" at heart. I like to live by my favorite quote. "LIVE LIKE THERE'S NO TOMORROW". As you can see I'm not shy or bashful, I'm very outgoing and passionate about modeling. After seeing Crystals spread there may

not be... but who cares????

Ronnie and I would personally like to introduce Crystal Staggs. We had the pleasure of shooting multiple session of her to complete her submission. We both knew that she was somewhat of a risk taker when she said "I can do that". Every once in a while as a photographer you run into a "WOMAN" that truly seduces the camera with a SULTRY look. Well this one has it in the bag... A true pleasure to shoot and we hope you like her shots.

I was born in a small town, just outside of Vancouver B.C, raised from a big family I was the one who had, as my mom would say: "A flair for fashion". I've always had a way of doing things a little differently than others. From the creativeness in my design, my "eye for the tiger", my determination and my unique sense of style, this gal knew she would be something when she grew up, not sure what... but something / someone in this big Old world!

When I was about 13 I got a job offer, the local mall was having a "Bring on Summer" event and I was asked to partake in the annual fashion show. I hadn't done anything like this before, but I has

always wanted and hoped for the day I would get my chance. Once I agreed, they put me in a runway class and a few model pose workshops. Since I was new, I was very grateful for the opportunity at hand. The night of the show I was pretty excited, I was about to go down the runway modeling Tommy Hilfiger's new summer collection. I was thinking is this even real right now!

My career, I could feel it was about to start. But as I was so young my parents insisted I waited till after high-school to really take it serious. I got a few different jobs during that time. One of the better ones was for Calvin Klein. He was

doing an abstract type of shoot and he made outfits from bags. It was interesting. Once I graduated I was able to focus on my career. I started doing photoshoots, hoping I would be comfortable in front of the camera, sure enough I was a natural. Soon I had enough pictures to begin my portfolio. Now I was getting excited, I was becoming a model, it was a little dream coming true.

I got a part time job as a photographers assistant working with her at her studio. My duties were such jobs eg: helping the women pose, there facial expressions and well I have an eye for flaws so anything that was out of place. I would also

help the gals get all dolled up. Pick out which outfits and accessories they wanted to wear. Working at the studio really opened my vision on modeling, as this photographer specialized in Pin-Up old school style shots. I fell in love with the style, the Betty came out in me and Jazzy Cupcake was born! From the hair to the lips to the clothes to the bad ass hot rods and custom bikes, I knew I had found the niche for me.

My style changed and so did the style in my modeling, Hot rods and motorcycles where my new jadore. The photos were turning out amazing, my new creativeness was a hit.

From the hot rod car clubs to the custom build bike clubs to some serious bad ass custom bike shops, this Cupcake is making her self one fabulous portfolio. life as a model is quite exiting, especially once you start getting more known. From working events and from being published, people start to recognize you.

I've done some pretty bas ass work, from clothing company's asking me to repp there gear. Purpose Apparel in white rock Canada B.C, Sullen clothing in L.A California and Vandal clothing in Lloydminster, Canada AB. From getting to be on the cover and a 2 page spread

in Build Magazine in Langley B.C, to getting published in Kustoms magazine in Europe to becoming a poster girl for one sick custom bike shop, Trickfactory Customs in Coquitlam B.C.

But regardless how big or small the job may be, to me it's all an experience and networking. I love an adventure, cause after all isn't that what life is all about? Take a chance, Roll them dice! Life is what you make it, always listen to your heart and follow your dreams.

Keep it up keep it cool n keep it real!

Peace n Love from Jazzy cupcake

I grew up in a small town with a big dream. A dream that seemed unreachable for a short awkward little girl. I was put into a few beauty pageants when I was young. Surprise, I never won. I never had much self esteem. But I never wanted to give up my dream, so I convinced my parents to put me into a modelling class. This class taught me alot about walking, strutting and posing. The best part was at the end of the whole class I was told that you need to be at least 5'10 or taller to be a model. Well, didn't that just burst my bubble. So I put my dream on hold for a while. Went through highschool, college and moved all the way to British Columbia for fun. Met a guy, it turned into a thing. Told him my dream, and he suggested I continue to pursue it. With little to no experience I joined

a model website called model mayhem. Found a few local photographers, and started to actually do real modelling gigs. Soon after I conjured up even more courage and decided to submit myself into a bikini contest. Wow, was I ever nervous. But never the less I did it. Not to long after I had discovered I was pregnant. Sure enough first thing that ran through my mind was, "how long will my dreams be put on hold for now?" We then decided to move back to Ontario. I then gave birth to my beautiful son, and thought to myself, "if I can give birth, I can do anything if I set my mind to it." So I got up off the couch, worked hard and started searching for local photographers. Found a few, did some shoots and now here I am. Never give up hope!

Priscilla Carrino

Hi my name is Priscilla Carrino, I am 22 years old Born in Salem . Raised in Boston MA. My favorite color is Pink, I love doing Pilates, shopping, tanning in the sun, and traveling.

The reason I moved to the west coast was to pursue my dream as a model. I remember the first time I saw ANTM, there was something about that show that made me want to be in the industry. To be in high heels, and makeup. I had already had an obsession with taking pictures. My mother ended up taking me to do my very first cat walk in a clothing store. I remember walking all around the store with this

other model, in these black high heeled boots, red striped top and cute little tight jeans. I was rocking that run way harder than any other girl that was there with me. A couple of years later I had my quinceanero, and my parents hired this girl to record my sweet 15 and have it on video, along with a photographer. A month after my Quinceanero the girl had asked my parents for permission to use my video in a commercial. She said my face was perfect for it. In 2011 I took a trip to the Dominican Republic where both my parents are from to shoot with a photographer named Shamir Fersobe. I was so excited to have the oppor-

tunity to shoot on the beautiful Island. I enjoyed every moment of its beauty, and I got to do what I Love! I Love modeling so much. To many people out there this is just a hobby, or a way to make money. Modeling for me is more than that, it's something I have put my hopes, dreams, and desires into. It's a critical world, but I'm up for a challenge always. I look at the positive, and ask myself, what I can learn from what I have been told? I have been knocked down before, but I didn't let that stop me from getting where I want to be in this industry, and I will keep striving, and reaching for my dreams.

Growing up, Anjelica Krystine Hayes always wanted to model, just like every young girl. But she always figure it was far fetch, and she would never have the chance. At the age of 18 she had a few photographers contact her about shooting, nervous at first but she went for it. Her first photoshoot was a killer and from that moment on she was addicted and dedicated. She knew what she had to do, and what she had to give up. It wasn't easy, and it was a slow process at first. Staying up late to practice posing, looking up new ideas and inspiration. Collecting wardrobe and setting a good reputation for herself, its a continuous work in progress. And now her goal is to inspire other models and young girls to go after their dreams. Aspire to inspire.

Anjelica partnered up with Nate Marshall and Master Pixel Imaging to create these images for Tease Magazine.
