Abigail Rasmussen

hi, I'm Abigail. I am finishing school. I model to help me pay for living expenses and such because I've been on my own since I was 16. My goal is to move to Florida and go to school to study to be an ultrasound technician. I am single after being with someone for 6 years who moved out and cheated on me. So I'm on the market but more worried about being independent and able to support myself. I love guys who like to have free time, and spend time with his girl friends and guy friends. I love having space and being able to trust each other. I only request Sunday's to myself and a significant other to watch football so I can cook you appetizers and serve you drinks. I'm a very laid back person. Special thanks to my photographers Zae Thao and Kody Thao. Also a huge thanks to Lilly Verdeja for being my hair / makeup artist.

Hi, my name is Luna Eclipse Modeling! I'm a freelance model located within 15 minutes of Dayton, OH. I've been modeling for 5 years now, but I really discovered my passion for modeling by accident. I had danced ballet for 16 years of my life- until I was 18. But when I was in my final year of middle school, I tore my Achilles tendon and couldn't pursue ballet as my career anymore. I spent the next few years only dancing the bare minimum- I wasn't able to compete or do pointe anymore. I thought I was broken, and it sent me into a depression throughout the first year and a half of high school. When I was in my sophomore year, I was contacted by a local photographer. With his help, I learned how to model. He taught me all the basics, and I flourished. I took my first few years slowly, because I still had school and work to deal with. But two years ago, I found myself with extra time and a passion I hadn't had in years. I threw myself into modeling and fell in love. Since, I've been published 10 times with a cover, and I'm still waiting on a few pending publications. There's nothing I love more than the confidence and sense of peace I get from modeling. I even get to do a decent amount of ballet shoots, which makes me so incredibly happy! Modeling has helped me find a sense of purpose in life again, and I'll be forever grateful to the photographer who introduced me to it. My friends and family have been nothing but supportive, and my boyfriend goes as far as letting me dress him up and drag him along to shoots with me! I couldn't ask for anything more, modeling has been such a huge blessing in my life! If you took the time to read off of this, thank you! Hopefully you'll take the time to see more of me, but if this is as far as it goes I'm glad you at least got to know this little bit about me!

Cassie Marshall

My name is Cassie and I am not your ordinary small town girl. Yes I am from a town with less then three hundred and was raised on a cattle farm. I love like a woman, fight like a boy and have the sexual skills of the Greek goddess herself. I pride myself in my votes however can walk any show or shoot in heels just the same. I am a Libra so yes I am pretty much the shit in all aspects. I live life with a passion and the adrenaline rush too! My rush is from either horseback or the freedom of being on two wheels! I am also the owner of a local group in Arkansas called the Arkansas Ladies Of Hope Association in which we do events to help children with the medical funds their family is not able to come up with as well as awareness to those illnesses too.

Hey! I'm Chelsea. I'm a little girl (5 foot 2 inches!) with big dreams. I started modeling a couple years ago as a fun hobby while I was studying Engineering. It has been an amazing experience! I've met many great people and friends along the way, shout out to Brooklyn Wilson who's also been published in this magazine! Other than modeling, my hobbies include... painting, singing in shower, camping, making awkward situations, animals and adventure, dancing in the car, anything batman related. Oh, and I also have my own bikini line so the bikinis you see me in I made myself! I may look like a girly girl but I grew up on the x files and had a race car bed. I'm also a bit of a closet nerd... Whoops! Guess its out now!

A small town farm girl, I love to model. All thanks to my mom who supported me in my modelling career. She modelled when she was 18 and became a Calgary Sun Sunshine girl. She is my inspiration.

Born in Calgary, Alberta, Canada and raised in a farming town, Pincher Creek, Alberta there wasn't much for me there. I moved to Edmonton when I was 18 and started looking for modelling gigs. In 2013, I competed for a spot in the 2014 Bear Babes Calendar and scored the month of September. From that experience I met some amazing photographers and started to get my name out.

I love modelling because it makes me feel confident and sexy. Knowing I can take amazing photos is an accomplishment in my books. I want to look back on my life and say I did what I wanted to do with no regrets.

MICHAEL KELLER

Hello my name is Leitha, I am a small town southern girl born and raised in Virginia. I came to California in 2013 and fell in love. I started modeling about a year and half ago and it's something I truly enjoy!

I never considered the fact that I would be a part of a published magazine. Soon after I started working with photographers and getting the exposure, I was getting contacted about three to four times a week to shoot. I started getting more and more into the modeling and taking time to look up new poses and often practicing in the mirror. I feel that modeling is an excellent way to express your self in a silent way. Being a small town girl I am so thankful for all the support from my family, friends, and my husband. During the day for the last 10 months I have been in school to become a medical assistant, I am happy to say that I am finishing up at the end of the month and then will be starting back to college for my bachelors of science. Other than modeling and school I love to spend time in the outdoors doing things such as horseback ridding, snowboarding, and spending time with my two pups and my husband! I would like to give all photo credits to Michael Keller and say thank you for taking the time to work with me and having determination at each shoot!
