Jilly was born in Cumbria and raised in Southport, Merseyside, England. She went to a girl's high school, was always very active in every sport and played on most of the teams. She travelled around the country in her teens, as well as playing tournaments in Germany and Belgium in badminton. Jill also played competitive tennis every summer. All her family played tennis every summer. Jill didn't have a lot of friends growing up, but had a few close friends. Sport was her number 1 passion. After high school she graduated Hair-dressing College and started her own hair dressing business. At 17 she met her first boyfriend, whom she married, that ended in divorce at age 24. Jilly then came to Canada as a nanny. She lived and worked for the family for 2 years, then got her papers to stay. Jilly did a little

modelling when she was 26, and worked on movies as an extra. Jilly married again, had 3 children and stayed home to raise her children. As a family they always travelled and took great vacations. As the children got older Jilly got in to personal fitness training, as her love for working out and helping people get fit and healthy is what she loves to do. Then she realised that fitness itself is not enough, so she went back to school to study natural nutrition. School is almost at an end and she can't wait to share all the amazing facts & studies which she learnt in school. Healing the body through foods and thoughts. Jilly is now divorced and got in to modeling after being on dating sites and guys asked if she was a model. So she figured why not, she sent her pics to an agency and they took her

on. She's now a published model and has been featured on corporate media sites and infomercials. She has no special man in her life and is not looking, she is focused on building her own life with her children. Every day is a new adventure, she can't wait to see what the day brings. She loves traveling and meeting new people. She's off to LA to work with a commercial photographer and then in May will be one of the mature models featured in a Charity Fashion show to support the homeless. She is a very active lady, who knows what she wants and will go after it, with the support of her family, kids and friends. In July she will turn 50 and the adventures will continue. She loves her life and lives it to the fullest each and every day.

You know those little girls who idolize models and dream to be one one day? I wasn't one of those- I was more of a tomboy. It wasn't until I had met a photographer who really liked my "style". I had no idea what he was talking about. But over time i just kept meeting people and modeling became super fun and I discovered my "style"! I'm happy to say that I have gotten to work with the photographers I've worked with. I plan to continue to climb and just let the wind take me where I need to go.

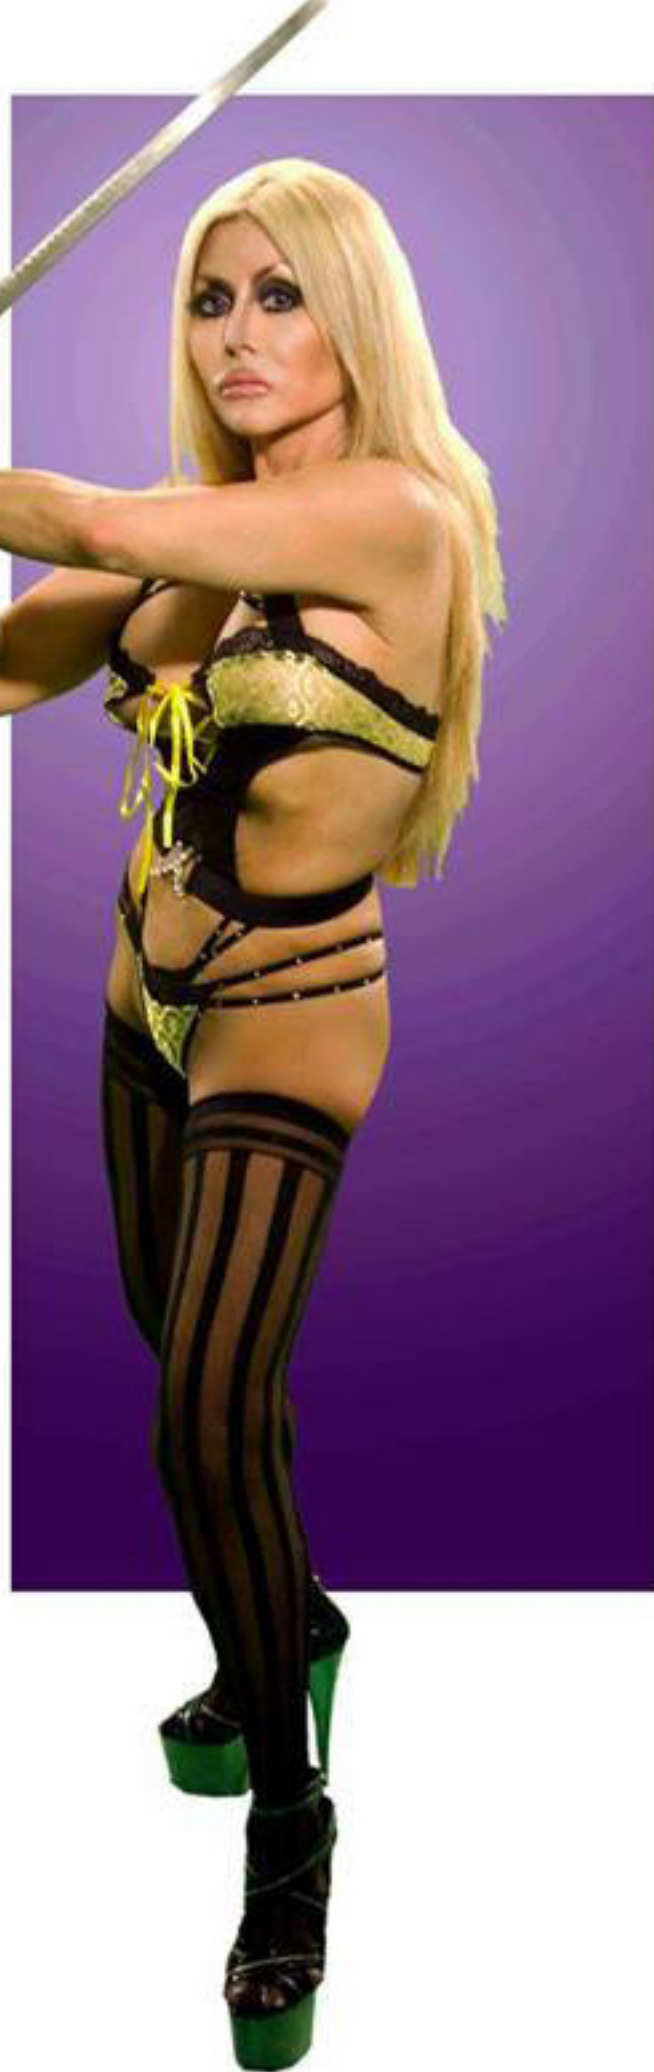

Actress Dawna Lee Heising will play Alice in the upcoming feature film "Happy Ending" from producer and director Phil Condit and producer Maria Olsen.

"Do not let your fire go out, spark by irreplaceable spark in the hopeless swamps of the not-quite, the not-yet, and the not-at-all. Do not let the hero in your soul perish in lonely frustration for the life you deserved and have never been able to reach. The world you desire can be won. It exists.. it is real.. it is possible.. it's yours."

A woman with long dark hair is lying on a bed with white linens. She is wearing a black bikini and is looking directly at the camera with a neutral expression. The lighting is soft and warm, creating a relaxed atmosphere.

My name is Selene Palavecino, I was born in Argentina but I come from half Italian family, more precisely of Milano. I am a self made International Model/Host on TV. I do a bit of everything like print, commercial, fashion, graphics, advertising but this year I am dedicating more to be Host on TV. I am currently a Host in an entertainment program, with live bands and comedians. I really enjoy this job but still I see myself as a model in progress which wants to grow every day. My most important achievements have been entering the tv and radio, I have not had failures in life because I never stop fighting. I become a positive influence in fashion in the last year so I created a fashion blog where I share my advice to my fans. I consider myself an independent woman in every way, especially in relationships. I enjoy sex and good companies, I love traveling and learning about new cultures. I have no taboos and believe in freedom of expression of every person.

# Samihra Dugom

My name is Samiha GLAM. I have been a professional makeup artist/face & body painter for years. Also been overweight most of my life. (over 250 pounds worth) One day while working, I came across a photo of myself taken by a photographer who was taking the photos of a model I did makeup on. That photo changed my life forever. I immediately went to work and

thought to myself ??Enough is enough. It is time to stop wishing and start doing. I lost a total of over 120 pounds. I redirected the passion and fire in my veins for something far greater than simple satisfaction. I came to realize I had more than just patience and passion. I had a calling. I began modeling during my weightloss journey in an effort to empower other woman to do the same.

I then noticed how passionate I was about modeling in general due to my aspiring willpower and determination to be and do my best in life. Modeling has become a huge part of my life and I do it with strong purpose. I still practice my makeup artistry while modeling for anything from promo, fashion, editorial, film, and more! I am filled with fire that I proudly present as a model.
