Candace McMonagle better known as Candi Jo, is a 28 year old mother of three girl, wife, model and massage therapist. She grew up in Ardmore Oklahoma and always wanted to become a model. She has always loved being photographed and hoped that someday she could be noticed like the other models she had grown up seeing and idolizing as a child. However it wasn't until she became older before that dream finally got to become a reality. She had tried sending in photos and recently came across a photographer that was interested in helping her chase her dream to make it a reality. She hopes to be a role model to her daughters and others that have always had a dream not to hold back and never be afraid to follow your dreams. Candace has done model shoots such as lingerie, bikini, and some fashion and hopes to experience other types of modeling as well as artistic to explore her creative side and see where her future in modeling will take her. She has recently been discovered by Dollz Magazine and will also be published in the June 2016 bikini and lingerie issue.

Ambitions: To become a well published model and continue my modeling career

How was life growing up?

Life was good growing up. I have an amazing family, my mom, my dad, my sister and I are all very close. My childhood was amazing filled with cottages and

memorable family vacations, lots of laughs and fun times. One downfall to growing were my friendships, throughout high school and especially now that I am perusing modeling I have had a tough time finding a support system outside of my family and fan base. A lot of the time I have been called names or severely judged based on my lifestyle choice. It can be hard finding out who your true friends are. Seeing the small amount of people who have stood behind me from the friend side of things while I have been modeling has been a real eye opener. Even through

the tough times and through the bullying though I wouldn't change anything it has all made me stronger. If someone can't be supportive I don't need that in my life anyways. I owe everything to those who have really stood by me I will always be grateful.

How did you get started modeling?

It all started when I was asked to be in a music video two famous music artists. I said yes and was so nervous. When I go there the people organizing it were so kind and encouraging I had an amazing time and

experience then opened more doors for me. I have just continued to work my hardest and take opportunities when they present themselves. I am only 19 and I'm not done yet!

What do you do for fun?

I love to relax and lounge by the pool. I feel like I am constantly on the go so when I get a second to just relax I take it! I also love to travel. Of course a night out with the girls is always fun!

Turn-ons:

Eyes, smile, someone who can make me laugh, success

What do you do to stay fit?

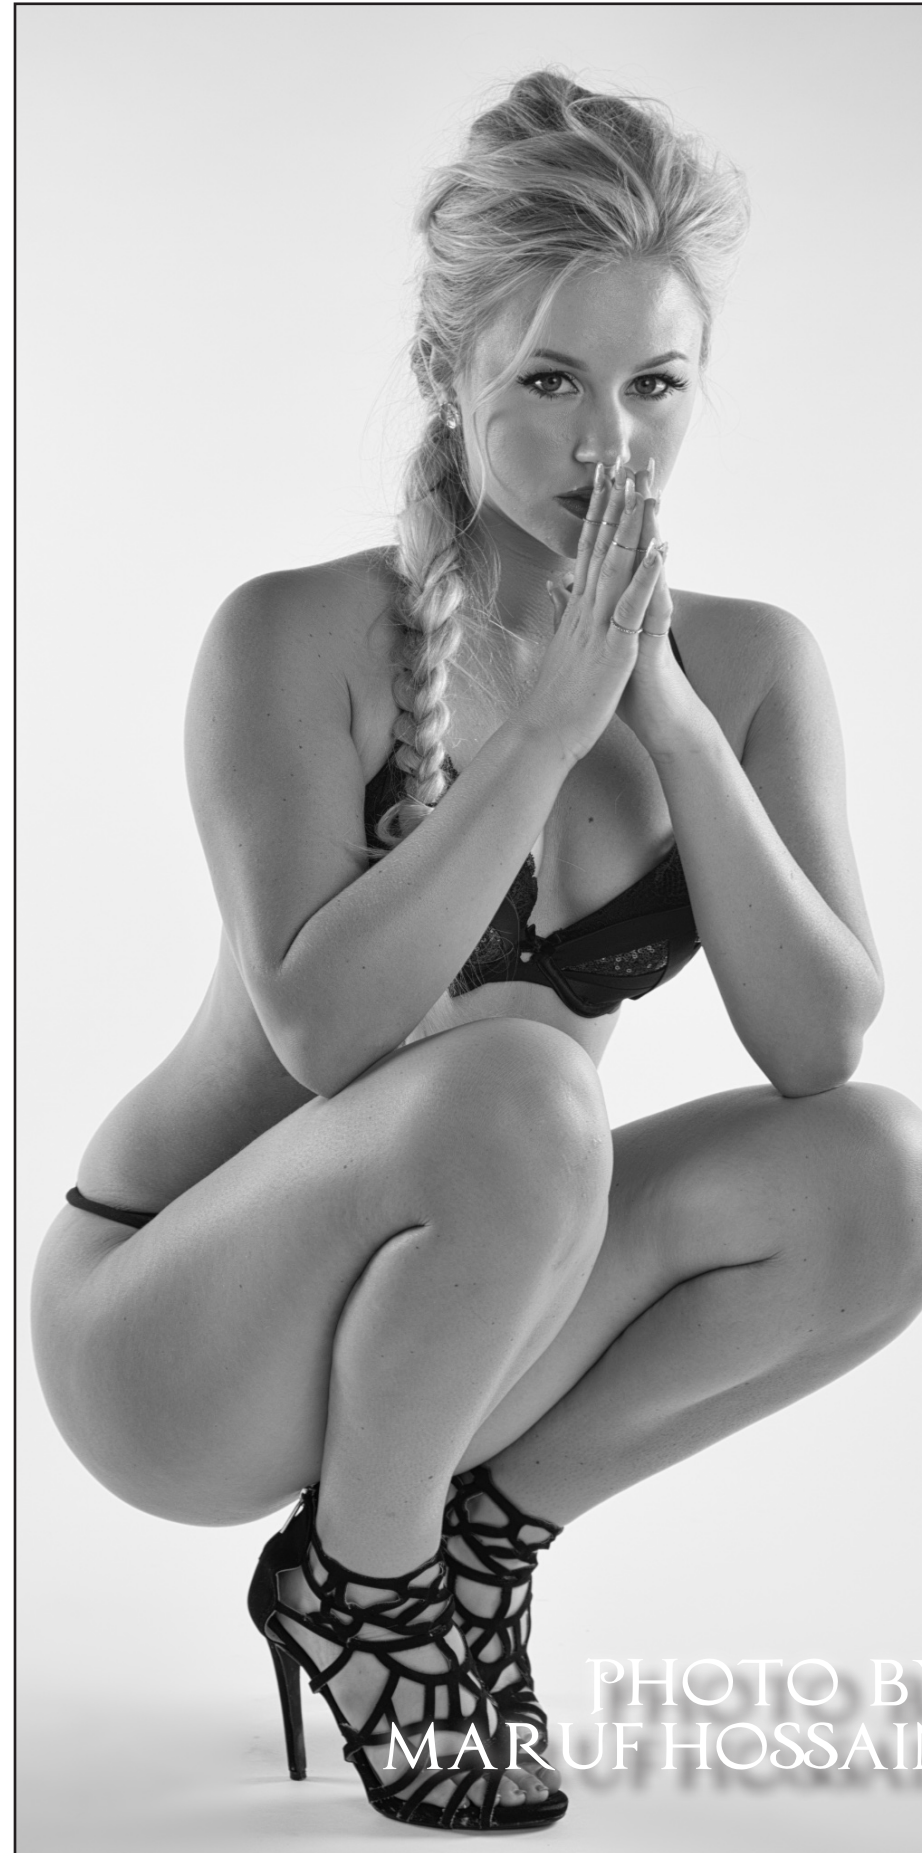

I go to the gym A LOT! I eat healthy, not just dieting but making sure that I am eating properly and healthy. I really enjoying going for walks and runs as well.

What is your favourite part of modeling?

I absolutely love expressing myself through photographs, I really enjoy having fun while I work. I love meeting new people and travelling. Being a model I have been blessed with amazing opportunities to travel all around the world. I love going to new places and I cannot wait to explore some more! One of the biggest rewards of modeling is meeting talented people from all over. In the past two years words cannot even begin to describe the experiences I have had. I have shot with some very experienced, talented photographers and met some amazing models and people from the business. Seeing myself get published in magazines from around the world and experiencing the international exposure has been extremely rewarding and wonderful.

What are some Challenges with modeling?

Being in the modeling business is not all fun. It can be emotionally and physically challenging. Sometimes I feel like I cant even sit down I am so busy. Emotionally though it can be extremely draining. As a glamour model you are constantly putting yourself out there with no promise of anything in return, you are literally putting yourself on the line and hoping that people do what they said they would. You promote organizations and can only hope you get a simple thank you in return. Going into this I had dealt with some bullying in high school, put down for how I look, and people sometimes only assumed the worst about me through he said she said. More often then not when people get to know me they actually say "your nothing like

how I thought you would be". Going into modeling it has amplified being judged based on appearance even more, but I can honestly say I expected it. To other models, they may see me as not as good as them, some have put me down and have talked poorly about work I have done. Being a model you can also be told you aren't good enough for certain things or you don't have "that" look. It hurts to be put down, it can make it really hard especially when it continues and escalates and people continue to talk even when your over it. But I have to remember this has all made me so strong and it has formed who I am. Because of how I have been treated in the past I am very thankful when things work out and even more thankful when I meet amazing and kind people! I always remember of all accomplishments and the amazing people I have met and its all worth it.

Advice For anyone in the business:

A message I would like to give to anyone modeling is always be yourself, you cannot mold yourself into what someone else wants because tomorrow they could want something different. If your constantly changing to fit a look someone else wants it will only be a vicious cycle. Keep your look, keep a humble attitude, be kind to others, be yourself! If its meant to be it will happen just keep working for it! I always tell myself I want to be published as me and I want to be proud of what I'm representing. Don't get caught up in the negatives stay positive and stay humble! Take your challenges and make them strengths! Everyone is unique we all have a story to tell.

What is your most embarrassing moment:

Its not a particular moment, but I always get extremely humiliated if I have parked horribly, I don't know why but if I do something ridiculous while driving especially if someone is in the car with me I get super embarrassed.

What is your ideal summer vacation:

I would love to travel to Germany! I have family there and I have always wanted to go and see the culture and really explore!

What made you want to be a model?

I use to love looking at models in magazines when I was younger. My sister and I always use to pretend to be mod-

els and take pictures and dress up and we used to pretend to make music videos. Some people I was close with told me I could do it and I thought I would try, your only regret should be that you didn't try. I went for it and I couldn't be happier!

I was born in a small town in Ontario Canada. Growing up in a small town

was great! I am very close with my mom, dad and older sister. I dealt with some bullying in high school and over came it through remaining positive and focusing on all the great things that came my way. I am young motivated and driven to rise to the top. I have a unique sense of humor and I'm always up for a fun time. Overall I have met

so many amazing, kind and talented people in my life I have so much to be thankful for. All of my obstacles have only made me stronger and I'm so thankful for. All of my obstacles have only made me stronger and I'm so thankful for my friends, family and support system. I am so blessed for all of these amazing opportunities that have come my way

Sara Mod

Hi my name is Sara, I am from Saint Louis Missouri, I currently reside in St. Charles Missouri. I love music, animals (especially my bulldog Bently), football, and sunshine. Since I was a teenager, I've always wanted to be a model. I love fashion, wearing pretty outfits everywhere I go, wearing different hairstyles, and love taking pictures. I've always been a stylish person from work to outdoors. I never thought I could be a model and always doubted myself, but here I am, with help from Neil Valli at "eNVy Boudoir" being a model, so hopefully this will inspire others with doubt to go for it!
